Chronographs

A nativus of LAODICEA established
a 19-yr lunar cycle, constructed on
the new moon (neomenia) of
the vernal equinox (March 22)
beginning in 258, equivalent
in the world era of JULIUS

AFRICANUS (-5501) (minus sign
indicates years before the birth of
Christ) to 5759. By taking into

account the preglacé year, which appears
11 spots from its beginning, the cycle
through revolutions (303 + 19) appears
the 1st year of the Wood era. In addition
the chronology of the Roman according
to Julius, 13 June, Mar 23-31, so in
agreement with the cyclical analysis
for the same year (end of the cycle)
